Skin exposure	Get medical aid immediately. Immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes.
Inhalation	Remove from exposure to fresh air. Closely monitor the victim for signs of respiratory problems, such as difficulty in breathing, pain, etc. In such cases seek immediate medical assistance.
Ingestion	Do not induce vomiting. Get medical aid immediately. If victim is conscious and alert, give 2-4 cupfuls of milk or water.

SECTION 5: Fire Fighting Measures

General information	If this material is involved in a fire, fire fighters should be equipped with a NIOSH approved positive pressure self-contained breathing apparatus and full protective clothing. Flammable. If involved in a fire this material may emit toxic organic fumes and titania dust. Water Reactive. Material will react with water and may release a flammable and/or toxic gas.
Extinguishing media	Do not use water! Carbon dioxide, dry chemical powder, or appropriate foam.

SECTION 6: Accidental Release Measures

Spill and leak procedures	Eliminate all ignition sources. Avoid contact with water. Small spills can be mixed with vermiculite or sodium carbonate or other inert material and swept up.
